GREEN

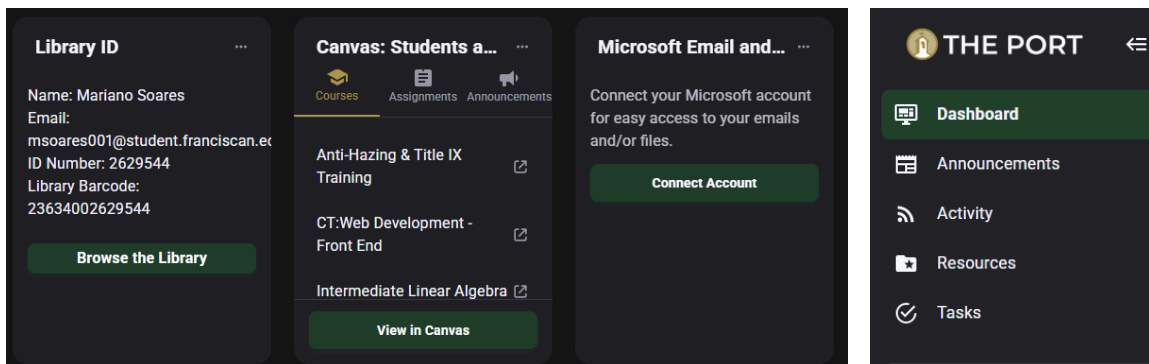

Proposed Changes In Action

Image Removal + Taskbar Revamp(Color Change + Border Addition)

60/30/10 Implementation (Black Grey Green)

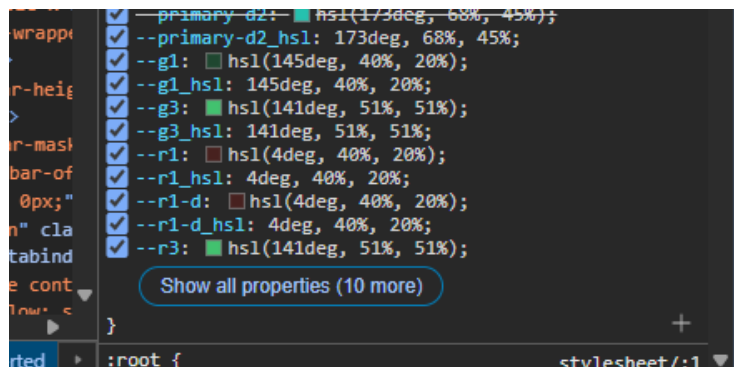

Side by Side Comparison(Old/new)

This screenshot shows the 'old' version of a student portal. At the top, a navigation bar includes a menu icon, a search icon, and a notification badge with the number '82'. Below this is a large banner with the text 'WELCOME. WHAT WOULD YOU LIKE TO DO TODAY?' and a background image of a church steeple and flowers. A secondary navigation bar contains buttons for 'Academics', 'Finances & Accounts', 'Tech Help', 'Food & Dining', and 'Spaces & Places'. The main content area is titled 'Widgets' and features a 'Find New Widgets' button. Three widget cards are displayed: 'Library ID' (showing user details like Name: Mariano Soares, Email, ID Number, and Library Barcode, with a 'Browse the Library' button), 'Canvas: Students a...' (with tabs for Courses, Assignments, and Announcements, listing 'Anti-Hazing & Title IX Training' and 'CT:Web Development - Front End' with a 'View in Canvas' button), and 'Microsoft Email and...' (with a 'Connect Account' button).

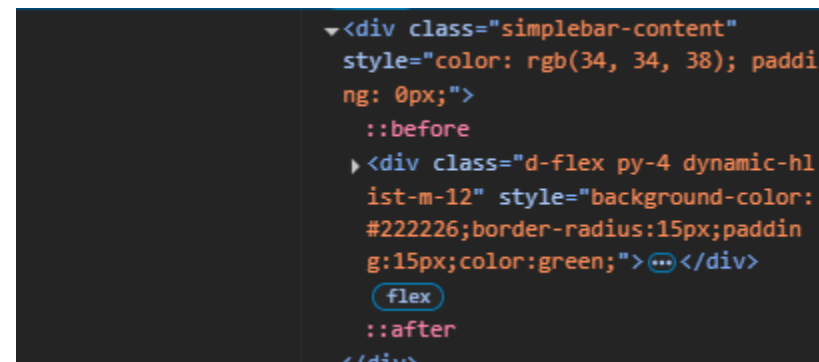

This screenshot shows the 'new' version of the student portal. The layout is more streamlined. The top navigation bar is similar but the banner is replaced by a row of category buttons: 'Academics', 'Finances & Accounts', 'Tech Help', 'Food & Dining', and 'Spaces & Places'. The 'Widgets' section still has a 'Find New Widgets' button. The widget cards are more compact: 'Library ID' shows the same user details but with a 'Browse the Library' button; 'Canvas: Students a...' shows the same course list but with a 'View in Canvas' button; and 'Microsoft Email and...' shows the same 'Connect Account' button. A new 'Events Calendar' widget is added, showing a calendar for March 27 with events like 'NET Ministries Recruiting' and 'Easter Charity Ball Ticket Sales'. An 'Academic Profile' widget is also present, showing the major 'Software Engineering', 'Credit Hours Earned' as '49.00', and the advisor 'Stephen Frezza'.

The edits

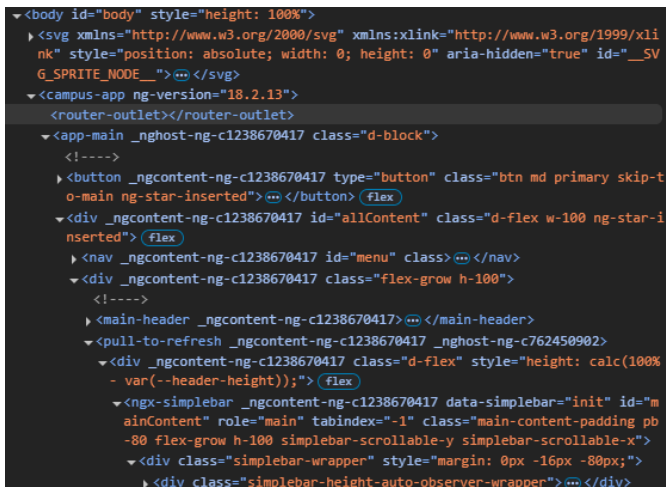

Changing Button Colors

Changing Taskbar

Removing Image (Hint: It's literally "removed")

Conclusion

Changes Made:

- Taskbar Design
- Image Removal
- Color Revamp + 60/30/10

More Changes to Add in the Future (not with inspect)

- Search function redesign
- Most used functions displayed first

Please forward my submission for consideration for SWOP work
